**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-6, 14-17, 20 and 28 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art of record is Miracle et al., as applied in the previous office action. Compositions according to the reference can be formulated using granulation equipment, making obvious the idea of granulation and extrusion out of an aqueous slurry. However, applicant's declaration shows that compositions dried as a result of extrusion are different from compositions which are dried, but not as a result of extrusion. This gives weight to the product-by-process language of the composition claims, and makes the method claims allowable over the reference as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his supervisor, Mr. Douglas McGinty, may be reached at (571) 272-1029.

The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8100.
